

Dear Sirs:

Headlined in American newspapers during the past ten days has been the fact that our President and Secretary Marshall have made to Britain what proved to be a "futile plea" for a reconsideration of the British decision to send back to Europe those European Jews who had embarked upon another of the recurrent attempts of illegal immigration into Palestine.

Would it not have been far more pertinent, as well as far more logical, for our government to have inquired as to what persons or American organizations blatantly provided, chartered and dispatched these ships, contrary to all international laws governing immigration? Who or what as yet unrestrained American organization, contrary to the sovereignty of the nations of Europe have caused these pitiful groups of their own people to break every normal and legal regulation governing frontiers? It is this group that has visited the crowning degradation upon its own people, not England or America. These persons or group organizations are they who should be the concern of those high in authority in our government. It is these who are bringing upon their own people, upon our fair land, and even the U.N. a harvest of distrust and contempt -- it is these who are obstructing peaceful settlements of legitimate problems of international concern.

To many thoughtful persons in America it seems regrettable for our national dignity and integrity that our Secretary of State has not long since gathered from his own files, as well as to have directed Mr. J. Edgar Hoover to report to our State Department, the names of those persons and organizations located in or stemming out from our White House, our State Department, our high courts, as well as our halls of Congress, who, for their material gain, or aggrandizement, have purposed and carried on a private war against England, our ally, a country and a people who have given many and adequate proofs that their general national aims and purposes are accepted as desirable by Christian and Jewish Americans alike.

Are these ruthless Jewish groups merely senselessly anti-British or are they actively and aggressively anti-Christian? When I hear young returned Jewish veterans say -- as I have -- "If the Christians try to bother us in America, we'll show them! The war has taught us how to organize and how to 'take over' -- exactly how to disrupt or to gain key positions of control." When I hear an accredited Jewish leader preach "as a matter of plain fact, when this Christian code of ethics is rightly understood, it does not apply to the world of men as we know it today." -- "Their leaders were merely provincial pietists." "I ask you to cherish the resentments which you know at this critical time in the history of our race, and to direct your resentments to do their decisive part in the affairs of men." He closed this ominous anti-Christian talk with the final directive "I charge you to be ruthless." Yet he and all his congregation out of all the world had chosen to come to a country founded on Christian principles.

Too long have we adopted a laissez faire attitude toward this whole unsavory problem. The very ruthlessness and lawlessness of the

- 2 -

Zionist Jews is daily building up an instinctive emotional defense against all the Jewish people. This feeling already tragically far outweighs the tolerance and good will that Christian leaders in England and America have earnestly tried to develop and to advance during the past decades. Too long have we stood aside or seemingly looked the other way while Zionist Jewish sympathizers high in government circles have more or less openly "connived" while this vociferous ruthless and completely insensitive portion of our citizens exerts every effort to modify, nullify, revise or actually cancel our immigration and other laws which have been formulated for the well being of all Americans and upon which our social, economic, political and even our spiritual future will be determined.

For the benefit of what portion of our citizenry does our Chief Executive retain his special wartime "immigration directives" and related prerogatives? Although these come under a special category after nearly three years of hush-hush as to their use, isn't it time for us to request or, if found necessary, to demand that our President cause to be formulated and published over his own signature, those special immigration and related directives still tenaciously held by him? These are U. S. laws or modifications of our laws, formulated and used for special purposes by our President in the name of all U. S. citizens. General awakened and aroused opinion would dictate that without further delay or equivocation, these facts should be made accessible to all earnest and law respecting and self-respecting American citizens for their study and evaluation.

Not "Marshall Plans" or "stop gap sums" or extra sessions of Congress, but, as I see it, by -- and only by -- national integrity at home and abroad can we hope to regain effective leadership among nations dedicated to the purposes of peace and good will among all men.

We have been rightly accused of national imperialism, what we do and preach seems no longer identical. One of the several glaring examples of this has been our leaders demanding that the present Palestinian government accept 100,000 Jews. The U. S., being 300 times as large as Palestine, and with a population one third as dense should we not have taken at least 300 times 100,000 or 30,000,000 before presuming (at the instigation of Zionist pressure group leaders strategically placed in positions of power in our government) to tell another sovereign power how to apportion her immigration as to numbers and types of people?

Our own immigration laws are being brought to nought by an influx of "visitors" who lose themselves in our large cities and never again leave our shores as well as by hundreds of thousands of refugees who come in daily "non-quota" over our northern and southern borders.

Let it again be unequivocally stated that the issue of a "political Zionist State in Palestine" and the Jewish refugee or "displaced persons problem" are separate and distinct problems.

- 3 -

Political Zionist groups in this country and abroad have ruthlessly and relentlessly used every possible device to confuse the thinking of non-students of these issues. Hundreds of thousands of the earnest citizens of Palestine, families who have been law abiding citizens of the Holy Land for generations, (Moslems, Christians and anti-Zionist Jews) now live in terror while American financed Zionist Jews have carried on a campaign of murder and bombing against Christian soldiers who were sent to Palestine by an international tribunal with a definite assignment of responsibilities and obligations. Places deemed holy, places long and lovingly cherished by Christians have been defaced or destroyed by the senseless fury of these unprincipled, "Al Capone-like" terrorist gangs, several score of which have been openly invited to come to the U. S. as guests of Jewish temple groups; they were and are being treated as heroes and raw and manufactured materials and financial assistance has been made available to them to aid them in their insane campaign of destruction. These facts have been authenticated and are frankly discussed by troubled, disgusted and incensed men of all religious opinion who have remained free of the corruptive influence of the devious devices of these Zionist pressure groups.

The Zionist state issue began over a quarter of a century ago. The issue would have remained the same had there been no World War II nor any war displaced "refugee" Jews.

Political Zionists want primarily and above all else: -

- I - A United Jewish voice in international politics.
- II - They also "demand" Jewish economic security.
They demand for the Jewish people control of
 1. The inexhaustable deposits of phosphates surrounding the Dead Sea
 2. The oils, metals and minerals found in large areas of Palestine.
 3. They demand control of the Jordon Valley irrigation and power project.

With these they would make a billion percent on all monies invested in the Holy Land.

III - Through the forceable acquisition and control of natural resources of the Holy Land area, these world domination minded political Zionists are determined to usurp: -

1. To usurp control of the essentials for successful agriculture and grazing on which the people of Western Europe depend.
2. Intercontinental trade routes by land, sea and air.
3. A vast amplification of their traditional "middleman" occupation.

These are three of the fundamental reasons why Christians and Moslems (who are also Semites!) are being murdered and maimed; why places sacred to millions of honorable men have been desecrated, and why the U. N. has had to study a problem that among honorable men would never have arisen. A pretty picture indeed, for our vaunted claim of civilized society.

- 4 -

This is the "pound of flesh" Zionist Jews demand for the "bond" given in the British "White Paper." That so-called "White Paper" which was intended and, by millions of sincere person, interpreted to mean a spiritual and inspirational home land for Jews, as well as Christians and Moslems. Had this not been so interpreted by earnest scholars representing each of these groups at the time of its publication, a protest would immediately have risen to high heaven. Every Moslem, non-Zionist Jew and Christian understood its word and intent and gave their assent.

During the chaos of the war years and the following years of troubled "peace" these opportunists, these world domination-minded Zionist State Jews, by their wailing self pity, their senseless brutality, their vicious dishonesty and untruths have gained for themselves - throughout this world of men - a record of distaste and revulsion unparalleled in the history of any other civilized religious group. Their purposes and devices have been a pitiful comment on Jewish ethical ideals and leadership - a sorry spectacle indeed among honorable men.

At long last -- one young Christian American aviator, along with a group of Christian officials of France, have shown sufficient moral fortitude to stand for Christian values of international decency and law and have exhibited to the people of the world, there shown in clear view, some of the dastardly, tawdry methods and ideals of the Zionist leaders who do not represent the vast majority of the Jewish people.

There is talk now of "protecting" this young Christian aviator "from the fury of Zionist terrorist gangs." Why? The names, as well as the pictures of many of these Stern and Irgum members, well known in America, because they are represented in our unions, our industries, as well as in our F.B.I. Why are they not brought before our United States or our world courts and summarily dealt with without further delay? Why should honest Christian men for honest acts committed for the public good be forced to hide from known alien gangsters -- in this land founded on Christian principles and in this year of our Lord, 1947?

May I humbly suggest to those rabbis who, out of all the world, yearn to live in peace in England, France and America -- (countries founded on Christian principles) -- that they urge upon their rabbinical school advisory boards that less time be spent on the study of ancient customs, far less time on the contemptuous ridicule of the tenets of our Christian religion and infinitely more time on those ethical ideals and practices deemed worthy in the world of today.

Jews are not and never have been a nation. They are a closely knit religious group and as such have as much and no more, right to political nationalism than have Baptists, Catholics, Methodists, Episcopalians, Dunkards or the happy "Angels" of Father Devine.

In our Bible, St. Paul wrote in Acts II - 5 "And there were dwelling at Jerusalem Jews, devout men out of every nation under heaven." This is true not only in the Jerusalem of long ago and today, but in every country in this world.

A glance through any of the Jewish Year Books will prove that they number among their people (by relocation, by inter-marriage or by direct conversion) hundreds of thousands of Chinese Jews, Japanese Jews, Australian Jews, East Indian Jews, Canadian Jews, Mexican Jews, U. S. Jews, etc., "devout men out of every nation under heaven."

The truly devout among these have little or nothing in common with the innately brutal, conscienceless, resentment laden, militant minority groups stemming from and financed by New York, California, and other political Zionist centers such as have voiced their delight when Christian men are murdered or maimed, or when bombs are placed close enough to Christian holy places to damage or deface them. These activities along with boycotts, smear campaigns, and out and out intimidation (to stop any organized investigation of their dastardly work) have gone on hand in hand with wailing petitions to Christian and Moslem men and governments for special dispensation of beneficial laws for their "cause", for money and other material aid, for forgiveness, for unlimited pity, for tolerance and good will toward them -- "because they have suffered so much". What of the suffering of two hundred twenty million Christians, Moslems, Mohammedans and Chinese to whom Europe and Asia is also a burial ground of hope and planned future, who also have lost families and homes and all they hold dear, but who now, with high courage, are doing whatever comes to hand to do for their re-establishment by their own efforts. Europe needs every possible worker in its reconstruction. Those who have labored and given honest effort in the past know they can and will rise again and with cooperation they may hope to establish a firmer and truer peace.

May I reassert as most of us who wish for peace and good will in the world have always asserted that relocation is not, never has been, nor ever will be a permanent or complete solution to the problem of the unadjusted Jewish people. Their habit of life, as well as their philosophy of life, is oriental in its essence. If they wish to reside happily and to become adjusted in the Occident, let them be taught by their leaders some essentials of the western personal and community viewpoint - (many of their lerned leaders too obviously are themselves in need of help along these very lines) - let them be shown the desirability of such business and social ethics as are, among persons of all religious opinion, found acceptable, and desirable in lands habituated to western cultures.

If, by an "expediency" that shames mankind, these Irgum, Stern Zionist gangs as a reward for two and a half year campaign of murder and bombing are now given (by U. N. Committee) Arab owned lands equal in size to two-thirds the area of the State of Vermont, not only will they by this unwarranted and unethical decision have the satisfaction of further retaliation upon "Goyim" and Moslem, but they will have gained an area of land and a wealth of natural resources beyond their most avoricious dreams. What would deter this same of any other low standard groups, actuated by the same rewarding aims and purposes, from demanding Vermont or Pennsylvania or New York where they now have centers, or a province in Canada or France, a state in Mexico, or a really fair-sized country like Brazil? There would be no less justice to giving the Jews these lands than there is to weakly bow to pressure group tactics and expediency and give them a Moslem country. In each of these cases it would be merely handing over the native population to a ruthless, alien, antagonistic domination.

- 6 -

I pray that, for the future welfare of Jew and Christian and Moslem alike, this unjust U. N. Recommendation will not be foisted upon our civilization. There could be nothing more unjust or destructive to peace and honesty in international councils. Most tragic it would be for all Jews, a hallow victory indeed, to make of Palestine a ghetto, a spot on the world map toward which all men would look forever after with loathing and contempt.

Not by pressure group tactics, not by making of themselves a closely knit and unleaven lump in the communities of the world will the Jewish people ever gain an honored place in the hearts and lives of men, but rather by an honest effort to achieve worthy citizenship in his own country and in his immediate neighborhood. Let him study to become (as many thousands of worthy persons of the Jewish faith already have done, many who came to the U. S. have proved this to be possible.) a self respecting, law abiding, constructive, cooperative, honorable and honored citizen of any land into which he has entered. It is only by determined effort on their own part that we can ever hope that this world wide and two thousand year old problem of these tragically unassimilated people may be solved.

To accomplish this desired result those persons who have endeavored to be a law unto themselves should be brought before our national or international courts of Justice.

Every church or congregation disciplines the lawless of their own group, then seeks to establish among these more desirable social and ethical reactions, then ultimately re-enstates them in their church community. It is full time for the Jewish people to so discipline these of their people, rabbi and laymen, who have gone so far astray.

I sincerely hope that the U. N. Palestine Committee will cease bowing to pressure or expediency and that it will announce the only completely honest decision it is possible to make which is that Palestine remain a Moslem country functioning under its own form of government.

Our President has proudly asserted his belief in the sovereignty of small nations and their right to a government of their own choosing. Fine! Now all he and we must do is to prove to the world and especially to the Moslem world, his and our sincerity and integrity. Why has this step been so long delayed?

For centuries the Moslems of Palestine have extended the hand of friendship to pilgrims to the Holy Land. Let us gratefully and graciously accept these privileges and with grateful thanks share with them the rich spiritual heritage that troubled land holds for each of us. Let us first have the priceless boom of integrity in high places of government, then, with time, goodwill, and the orderly process of law, an international agreement satisfactory to all honest men, can be formulated and the orderly government of the middle east and especially of Palestine become an accomplished fact exemplifying God's will for good for all men even unto this day.

Sincerely,

M. R. Haras
